

Install the Adobe Connect Add-In

First-time users of Adobe Connect, who are attempting to join an online webinar or view a video tutorial hosted in Adobe Connect, may be prompted to download the latest [and free] Adobe Connect Add-In.

Please Note: If you are unable to download the add-in following the steps below, you do not have "Administrator" access for your computer. You will need to submit a HelpDesk ticket to get this add-in downloaded to your desktop.

- When you click an Adobe Connect link, you will receive the message below.

1. Click Download Now.

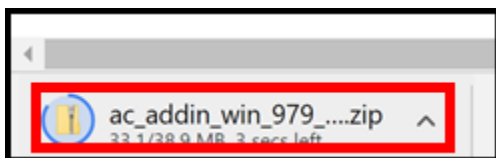

- This landing page will display.

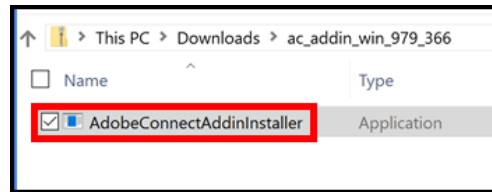

- In the bottom-left corner of your screen, a zip file folder will begin installing.

2. Once complete, double click on that folder.

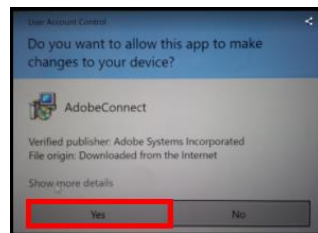

- You will be taken to the Installer location.

3. Double-click the Adobe Connect Addin Installer file.

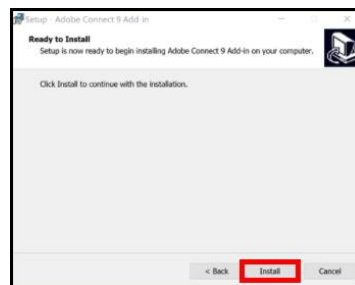

4. Click Yes in the message window.

5. Click Next on the Wizard message screen.

6. Click Install on the Install screen.

7. Click Finish when the installation is complete.

8. Return to the Adobe Connect link & click on it.

- You will now be able to access your webinar or video tutorial.

Special thanks to Autumn Miller from CHRISP who provided these instructions!
